## Assembly instructions for the footplate STLWS 1 - 4

**Recommendation:** The assembly should be carried out by **2 persons**.

**Important:** Use one half of the styropor packaging as an underlay for the lamp stand. Only in this way will you avoid damage to the lamp stand and footplate.

- Place one half of the styropor packaging and the lamp stand on the table.
- Remove the 3 screws from the foot section using a screwdriver.
- Screw the 2 threaded pins supplied into the foot section. These are provided as an installation aid.
- Feed the plug and cable through the footplate (except for STLWS 1 & 2).
- Guide the footplate over the threaded pins up to the foot section and insert one of the screws.
- Replace both threaded pins with the remaining 2 screws.
